HOME	ABOUT US	CONTACT US	CONSTRUCTION SERVICES	PROJECT GALLERY	WHAT WE DO
 CALLAWAY MIDDLE				We provide pre-construction services for all construction management at risk projects along with scheduling (using Primavera Scheduling Software), budgeting, quality assurance, and safety. We provide the owner with a detailed schedule of how and when the project will be completed, and conduct monthly job site quality and performance meetings.	
WHO WE ARE We are trained from childhood to be builders. We are by providence trained, both educationally and field experience, in all aspects of construction, but we specialize in the construction of all facets of school building needs. Our philosophy is if the owner is successful from our efforts then we will ride the tide of success.
